

**FennoScan Timber Co.Ltd.,
Sweden**

High Quality Scandinavian/Nordic lumber products for the US market

FennoScan Timber AB (Co.Ltd) is a Sweden based timber enterprise engaged in international timber trade for more than 25 years. The company is working as commission agents and exporters and deal with nordic sawlogs, nordic/european sawn and planed timber. Main species are spruce, pine, larchwood and birch. All products are kiln dried between 12 to 18% m.c. according to customers requirement and well planed on modern machinery (Waco/Weinig). Standard units (packages), covered 5 sides with plastic down to bottom layer with corner protectors
